WORK EXPERIENCE

Associate Application Developer — EncureIT Systems Pvt. Ltd. (Jan 2025 – Present | Pune, MH)

- Developing production-grade React.js applications for Indian Government and international clients, handling full frontend lifecycle.
- Translated 50+ UI/UX wireframes into pixel-perfect, responsive React components using Tailwind CSS, reducing design-to-dev time by 30%.
- Built reusable component libraries with React Hooks and Context API, improving team development speed by ~25%.
- Drove frontend performance optimization via code splitting, lazy loading, and memoization — reducing page load time by 35%.
- Integrated 45+ RESTful APIs for dynamic data rendering and collaborated in Agile sprints with daily stand-ups and sprint reviews.

Junior Software Developer — Synergy Universal (Jun 2024 – Sep 2024 | Hyderabad, TG)

- Built and maintained responsive React.js web applications with clean, modular, reusable component architecture.
- Integrated RESTful APIs using Axios and Fetch API for seamless dynamic data rendering across multiple pages.
- Ensured cross-browser compatibility and mobile responsiveness; participated in Agile sprints and code reviews.

Software Developer Intern — Synergy Universal (Jan 2024 – Jun 2024 | Hyderabad, TG)

- Contributed to 3+ live client projects — enhanced UI responsiveness and added React.js features in production codebase.
- Debugged 40+ frontend issues, reducing UI bug reports by 40% in collaboration with senior developers.

PROJECTS
